Our Correspondents.

From the Indiana Free Press, Ellettsville.

Our correspondent reports that the people of this place are anti-slavery to the core, and are determined to maintain it. They are preparing to erect a large building for the purpose of holding meetings, and for the accommodation of the people during the summer. The building will be of wood, and will be able to hold five thousand people. The people are also making preparations for the coming election, and are determined to elect a man who will stand by the Anti-Slavery principles.

From the Free Press, Philadelphia.

Our correspondent reports that the people of this city are very much aroused over the recent proceedings of the legislature. They are determined to have the state's affairs managed in a proper manner, and are determined to have the right party in power. The people are also much interested in the recent protests of the negroes, and are determined to aid in the establishment of a free and equal society.

From the Free Press, Boston.
