Union County Committee.

There will be a meeting of the Union County Committee on September 6th, at the Hall of the Court House, at 3 o'clock P.M., for the purpose of electing a candidate for the State Senate from that county.

We would also like to hear from some of our friends in the City of New York, and to learn what is going on in that city, as well as in the rest of the State.

CIVIL RIGHTS OF THE NEGROES.

The Civil Rights Act of 1860, which was passed by the United States Congress, and which is now in force throughout the country, was a great step forward in the struggle for the rights of the negro race. It is a step in the right direction, and we hope that it will be followed by other acts of a similar character.

The act provides for the establishment of schools for the education of negroes, and for the protection of their property. It also provides for the appointment of commissioners to superintend the schools, and to enforce the law.

We believe that this act is a just and necessary measure, and we are confident that it will be a great step forward in the advancement of the negro race.

REUNION OF THE KANSAS TERRITORY.

The Reunion of the Kansas Territory, which took place on the 4th of July, was a great event in the history of the country. It was a national event, and it was a great step forward in the struggle for the Union.

The reunited Kansas Territory is now a part of the United States, and it is a part of the country. It is a part of the Union, and it is a part of the nation.

We believe that the reunited Kansas Territory will be a great asset to the country, and we are confident that it will be a great step forward in the advancement of the nation.
