A disappointed Woman.

"It is not usual for a woman to be a disappointed woman."

"In my experience, I have seen women disappointed, but I have never seen a woman who was not satisfied with her life."

The Stirring News from the Radio

LEONARD STRATTON

The suspense of the railroad, of the sea, and of the air is as bewildering to the general public as it is to the press and the public officials. The American Legion has been engaged in the work of securing a pension for the veterans of the war, and has been successful in securing the passage of a pension bill for the men who served in the United States Army.

The news from the front is not encouraging. The situation on the front is critical, and the American Legion is doing its best to secure the passage of a pension bill for the men who served in the United States Army.

From the Southwest

By way of the American Legion offices from New Orleans to 1901, have been reported a number of important messages from the front. The communication with the American Legion offices from New Orleans to 1901 has been interrupted by the necessity of providing a substitute for three years in the military service. The communications have been considered quite general. General Borden has recently issued two important orders, one of which is a directive directing the Adjutant General to issue an order that the President of the United States be advised that in the event of the death of the President the Vice President shall assume the duties of the office.

American Legion has a Lieutenant attached to the command of General Winder, who formerly commanded the Department of the Ohio. The Secretary of War has been made the head of this command.

The Peace Party's last hope of the Rebels

Gen. Butler, in the brief speech which he made in Harmar, is reported as having been the corresponding secretary of the Salem Guard.

The members of the peace party now reside in the capital and are living here.

Another Rebel Convention

As a great deal is said about coming supplantation of Gen. Currit in Alleghany county, it may be well to bring to the attention of the Governor, and the public generally, the fact that Gen. Currit has been elected by a majority of the votes cast, and is the duly elected Judge of that county.

The prospect of the resignation of the present Governor is near.

The people are up and moving. They are beginning to realize the terrible magnitude of the position they are in, and are determined to have a Governor who will do his duty by them. The recent actions of Gen. Currit have convinced them that he is the man they need. The people are now demanding his resignation, and they will not be satisfied until they have him out of office.

The Union State Convention, at their recent meeting, unanimously adopted a resolution expressing their opinion on the preparation of an address by the President to the people. They feel that it will be a great mistake to deliver such a speech. It will only serve to embarass the President, and damage his reputation. The people of the United States are not interested in the political affairs of the President. They are interested in the prosperity of the country, and in the welfare of the people. The President should keep his nose clean, and let the people take care of their own affairs.

By all means let the soldiers vote.

They feel a deep interest in the issues of the great conflict, and will do all they can to support the cause of the Union. They will vote for the candidates who are most likely to succeed, and who will do the best for the country.

The war is drawing to a close, and the people are anxious to have the soldiers come home. They will do all they can to help the soldiers return, and to make their return as pleasant as possible.

Mr. G. W. Currit, who has been a prominent citizen of Alleghany county, has been elected by a large majority of the votes cast. The people are now demanding his resignation, and they will not be satisfied until they have him out of office.

We are of the opinion that the soldiers should vote. They have the same interests as the people, and they should have a voice in the election of their representatives.
